

CLEAN LABEL

Powdered Alkaline Spray Wash Cleaner.

CLEAN-LABEL is an excellent all-purpose powdered phosphate cleaner. It provides outstanding cleaning of low quality hot rolled steel and "smutty steel".

CLEAN-LABEL is commonly used in processes that run primarily ferrous metals and occasionally aluminium.

KEY PROPERTIES:

- Removes residual coating of **AVION GREEN-LABEL** Stop-Off coating
- Removes heavy duty soils from ferrous and some non-ferrous metals.
- Exceptional product for cleaning extruded aluminium prior to painting
- Cleans hot rolled steel and smutty steel exceptionally well.

CLEAN-LABEL

Metal compatibility for the following:

- stainless steel
- iron
- titanium
- brass
- bronze
- cadmium
- chrome
- copper
- lead
- magnesium
- nickel
- steel
- aluminium and zinc alloys

*You heat it,
we clean it...*

Available in 25 kg pails.

Cuprous metals may discolour slightly after prolonged contact with the solution.
Not safe on tin.
